- **Foundations of Cybersecurity —** Google
- **Play It Safe: Manage Security Risks —** Google
- **Connect and Protect: Networks and Network Security —** Google
- Additional certifications in **Digital Marketing**, **SEO**, and **Google Ads** available on request

WORK EXPERIENCE

Production Support

Techigent Private Ltd. April 2024-Oct 2025

- Independently built and deployed bash script cronjobs on Linux servers to automate recurring manual tasks — scripts adopted by the team and still in active use today
- Provided production support for Sharekhan's pan-India trading platform, monitoring 150+ Linux and Windows servers and ensuring zero-downtime during live market hours
- Handled real-time production incidents and outages, coordinating with senior engineers under pressure to restore services with minimal disruption
- Executed Linux server deployments independently during shifts — managing file transfers, running deployment commands, and verifying successful rollouts
- Performed middleware log analysis to diagnose application errors and implement fixes across the trading stack
- Completed the longest continuous night shift rotation on the team — 3 consecutive months — in a high-stakes 24/7 operations environment
- Queried and analysed production SQL databases using SSMS — fetching and filtering log data to support incident diagnosis and root cause analysis

Desktop support Engineer

Lauren Information Technologies April 2023-Mar 2024

- Led an 800-laptop deployment project for a new company branch in Pune — delivered within a 2-month deadline managing 2 junior technicians and maintaining full compliance records
- Provided on-site IT support for 200+ users, configuring and deploying standardized environments including BigFix, Trellix ENS, Microsoft O365, and domain/network setup
- Diagnosed and resolved AD script conflicts causing company-wide password expiry failures, restoring user access and preventing recurring lockouts

Technical Lead & Automation Specialist

HideOut Marketing Oct 2025- Till Date

- Built n8n and Zapier automation workflows including form-to-Google Sheets pipelines and payment-triggered dashboard updates — reducing manual data entry and enabling real-time business reporting
- Managed end-to-end project delivery for 4 client websites, coordinating timelines and technical decisions independently while mentoring 2 junior team members

SKILLS

Core Skills

- Linux Server Administration
- Windows Server & Desktop Support
- Production Support & Incident Management
- Bash Scripting & Task Automation
- Network Troubleshooting
- Active Directory Administration
- Enterprise Software Deployment
- SSMS

Technical Tools

- BigFix
- Trellix ENS
- Microsoft O365
- Active Directory
- Linux CLI Tools
- Windows Server
- Blender
- Adobe Photoshop
- Adobe Premiere Pro
- n8n Workflows
- Zapier

Familiar With

- Basic PHP Customization
- Wix Studio
- Unity
- Adobe Audition
- Mudbox
- Autodesk Maya
- CorelDraw

Soft Skills

- Team Leadership & Mentoring
- High-Pressure Operations
- Rotational Shift Adaptability
- Cross-Team Coordination
- Documentation & Compliance
- Independent Decision Making

Personal Projects & Portfolio

ArtStation

- Residential interior scene — full environment design including furniture, lighting, materials and atmosphere in Blender
- Atmospheric environment scenes — mood-driven compositions exploring lighting, volumetrics and cinematic framing
- Product visualization for a confidential client — 4-variant deodorant lineup with branded packaging rendered in Blender for commercial use
- Product animation reel — 3D earbuds animation demonstrating motion, lighting and product presentation skills

Website Development Projects

- **hideoutmarketing.in** :- Full agency website designed in Figma and built in WordPress
- **rashaehasas.com** :- E-commerce perfume store with 50+ products, payment integration and on-site SEO
